Department of Earth, Environmental, and Planetary Sciences ◊ Brown University ◊ Providence, RI 02912

◊ arianna_krinos@brown.edu ◊ akrinos@whoi.edu ◊ github: akrinos ◊ [akrinos.github.io](https://github.com/akrinos)

PROFESSIONAL EXPERIENCE

- Brown University**, Postdoctoral Research Fellow November 2024 - present
- NSF Center for Chemical Currencies of a Microbial Planet (C-CoMP) Fellow
 - Department of Earth, Environmental, and Planetary Sciences, hosted by Dr. Mara Freilich
- Brown University**, Term Lecturer Fall 2025
- Co-Instructor of Record for EEPS 1400, Climate Modeling
- Woods Hole Oceanographic Institution**, Guest Investigator July 2024 - present
- Massachusetts Institute of Technology**, Postdoctoral Research Associate July 2024 - November 2024
- Follows Group, Department of Earth, Atmospheric, and Planetary Sciences

EDUCATION

- Ph.D. in Biological Oceanography, **MIT/WHOI** Joint Program June 2019 - July 2024
- **Thesis Supervisors:** Dr. Harriet Alexander & Dr. Mick Follows
 - **Dissertation Title:** *Decoding divergence in marine protistan communities: from strain diversity to basin biogeography*
- B.S. in Computer Science, **Virginia Tech**, overall GPA: 3.96, Minor: Mathematics, *summa cum laude* 2015-2019
- B.S. in Biological Sciences, **Virginia Tech**, in-major GPA: 4.00 2015-2019
- B.S. in Computational Modeling and Data Analytics, **Virginia Tech** 2015-2019

SELECTED SIGNIFICANT TEACHING EXPERIENCES

- Brown University**, Instructor of Record, Climate Modeling (EEPS 1400) Fall 2025
- Led and developed course content in climate modeling, including physical and chemical foundations, computational constraints and considerations, and primary production and biology
 - Facilitated lab sections for two self-defined groups of students, “quantitative” students with more of a mathematical and computational emphasis, and “qualitative” students with an emphasis on interpretation and contextualization of climate science alongside technical content
 - Contributed to new assignment development, including coding exercises; graded student work
- Massachusetts Institute of Technology**, Co-Instructor for Marine Phytoplankton Physiology and Ecology Fall 2021
- Designed course and developed course materials, including lecture content and selection of readings
 - Managed scheduling of weekly discussion leaders and facilitated class discussion
- Woods Hole Oceanographic Inst.**, Teaching Assistant & Guest Lecturer, Environmental Bioinformatics Fall 2023
- Led weekly coding hours and content reinforcement/recitation
 - Taught two lecture sections in pipeline and workflow development
 - Worked one-on-one with students on a daily basis [Course Evaluations Link](#)
- Woods Hole Oceanographic Inst.**, Teaching Assistant & Guest Lecturer, Biol. Oceanography (12.747) Spring 2022
- Taught weekly recitation sections in biological oceanography topics
 - Developed and graded exam problems for midterm and final exam
 - Assisted students in the development and refinement of semester projects [Course Evaluations Link](#)

ADDITIONAL TEACHING EXPERIENCE

Instructor Positions, Short- and Semester-Term

- **Instructor**, MIT-WHOI Summer Math Review: *R Programming* August 2023
- **Contributing Instructor**, WHOI Blue Economy January Course (Undergraduate Level) January 2023
- **Contributing Instructor**, WHOI Blue Economy January Course (Undergraduate Level) January 2022
- **Instructor**, Software Carpentries course in R October 2021
- **Instructor**, MIT-WHOI Summer Math Review: *Data Analysis* August 2021

- **Instructor**, Falmouth Summer Academy: *Mathematical Ecology, "Counting Critters"* August 2021
- **Instructor**, MIT HSSP (Educational Studies Program): *Population Models and Demography* July-Aug 2021
- **Instructor**, Software Carpentries course in **Python** and the shell June 2021
- **Instructor**, Software Carpentries course in **R** and the shell November 2020
- **Instructor**, MIT HSSP (Educational Studies Program):
Bayesian Pattern Analysis in Biology, 6 weeks Summer 2020
- **Instructor**, MIT-WHOI Summer Math Review: *Probability and Statistics* July 2020
- **Instructor**, Rainstorm: *Emiliana huxleyi and their viruses* June 2020
- **Peer Educator and Semester Course Instructor**, Honors Reading Seminar, Virginia Tech Spring 2017
- **Peer Educator and Semester Course Instructor**, Honors First-Year Seminar, Virginia Tech Fall 2016
- **Instructor**, Bioinformatics Virtual Coordination Network Summer 2020

Teaching Assistantships

- **Teaching Assistant**, Software Carpentries course in **R** and the shell June 2023
- **Teaching Assistant**, Marine Biological Laboratory Summer Course
Physiology and Transcriptomics June 2021
- **Teaching Assistant**, Software Carpentries course in **Python** and the shell June 2020
- **Teaching Assistant**, Biology Orientation Seminar Fall 2017

Guest Lecturing

- **Guest Lecturer**, Math and Climate: Nutrient-Phytoplankton-Zooplankton and Other Climate-Relevant Biological Models, Brown University February 2025
included homework problem & lecture design
- **Guest Lecturer**, 7.470 Biological Oceanography, MIT-WHOI Joint Program: Phytoplankton blooms, Sverdrup and current discourse February 2022
- **Guest Lecturer**, 12.715 Environmental Bioinformatics, MIT-WHOI Joint Program: Workflow development, Snakemake, and reproducibility November/December 2021

CURRICULUM DEVELOPMENT

MIT Courses: Developed plan for Phytoplankton Physiology and Ecology reading group including weekly lecture content and discussion questions

Independent Courses: HSSP (Population Dynamics and Bayesian Statistics), Falmouth Academy (math-environmental science interdisciplinary course)

Problem Sets: Contributor to problem bank, MIT 18.02 (Multivariable Calculus) and 18.06 (Linear Algebra): sustainability-related word problems

PEDAGOGICAL ENGAGEMENT

Sheridan Teaching Seminar: Participating in a semester course and discussion group in teaching practices through the Sheridan Center for Teaching and Learning at Brown in Fall 2025.

Communicating Ocean Science: Completed course in pedagogy at WHOI focused on active learning and communicating science to a broad audience; included science teaching outreach at the fourth grade and community college levels. Based on teaching content from UC Berkeley and the MIT Teaching and Learning Lab.

Kaufman Teaching Certificate Program: Completed course in pedagogy at MIT with the Teaching and Learning Lab including practical microteaching sessions.

Earth, Atmospheric, and Planetary Sciences Pedagogy Seminar: Participated in January (2022) term seminar course on pedagogy and active learning in the Earth sciences.

Honors Service Learning: Completed pedagogy course at Virginia Tech aimed at teaching in diverse communities; included classroom content as well as service at Giles County, VA Head Start center.

Future PUI Faculty Workshop: Selected for a three-day workshop on pedagogy, student engagement, and research resources at primarily undergraduate institutions (PUIs) at Bucknell University.

Reading Group: Participant in and contributor to Pedagogy Reading Group within the Department of Earth, Atmospheric, and Planetary Science (EAPS), MIT

SELECTED AWARDS

Distinctions and Honors

- **George P. Panteleyev Award**, Woods Hole Oceanographic Institution May 2025
 “The George “Gera” Pavlovich Panteleyev Award is conferred annually on the student in the graduating class for that academic year who best exemplifies the commitment to improving the graduate education experience and graduate student life at the Woods Hole Oceanographic Institution.”

– From award committee: “Arianna was particularly recognized for leadership in teaching and mentoring. She is recognized as an exceptional teach[er]...and worked to provide pedagogical opportunities for all students.”

- **Howes Scholar Award in Computational Science**, Department of Energy and Krell Institute April 2025
Awarded to two recent PhDs from the Computational Science Graduate Fellowship annually
Press Release: https://www.krellinst.org/csgf/about-doe-csgf/news/2025-06/howes25_kellison-krinos
- **Tom Cavalier-Smith Early Career Prize**, International Society of Evolutionary Protistologists
Two awarded annually across society January 2023
- **Senior Undergraduate Research Award**, Virginia Tech College of Science April 2019
One award granted annually within Virginia Tech’s College of Science to a graduating senior with exemplary undergraduate research
- **Outstanding Senior**, Virginia Tech Department of Computer Science February 2019
One awarded annually in department
- **Senior Excellence Award**, Virginia Tech Division of Computational Modeling and Data Analytics
One awarded annually in department March 2019
- **Phi Sigma Biological Sciences Honor Society** inductee May 2018
- **Phi Beta Kappa Honor Society** inductee May 2019

Research Fellowships

- **Grants-in-Aid-of-Research**, Phycological Society of America \$2,118, 2025
Leveraging novel -omics and modeling approaches to track algal ecotones following Hurricane Milton
- **Postdoctoral Research Fellowship**
NSF Center for Chemical Currencies of a Microbial Planet (C-CoMP) \$180,000, 2024-2026
- **Postdoctoral Research Fellowship**
NSF Division of Ocean Sciences \$167,800, *declined for C-CoMP Postdoctoral Fellowship*
- **Postdoctoral Research Fellowship in Marine Microbial Ecology**
Simons Foundation \$285,000, *declined for C-CoMP Postdoctoral Fellowship*
- **BioGeoSCAPES Early-Career Fellow**, NSF *AccelNet* Initiative \$5,000, August 2023-2025
- **Computational Science Graduate Fellowship**, U.S. Department of Energy >\$400,000, March 2019-2023
- **Grassle Fund Grant**, Woods Hole Oceanographic Institution \$7,400, July 2022
Proposal: Contextualizing *Emiliana huxleyi* thermal acclimation experiments with coastal metatranscriptomic surveillance
- **Ocean Venture Fund Grant**, Woods Hole Oceanographic Institution \$9,600, March 2020
Proposal: Identifying strain-specific differences in thermal acclimation of *Emiliana huxleyi*
- **Ernest F. Hollings Scholarship**, NOAA \$30,000 internship, tuition, conference funds, 2017-2019
- **Luther and Alice Hamlett Research Grant**, Virginia Tech Academy of Integrated Science
Competitive award for research funds \$3,000, December 2017

Teaching Awards

- **Teaching Development Fellowship**, MIT Teaching and Learning Lab \$2,100, 2023-2024
- **Graduate Teaching Award**, MIT Graduate Student Council April 2023

Competitions

- **Communicating Your Science and Engineering Essay Contest**, Annual Prize Winner April 2022
One winner chosen each year for a general-audience scientific essay on their research to be published in *DEIXIS*, Krell Institute
- **Outstanding Winner**, International Mathematical Competition in Modeling \$10,000, April 2018 & 2019
Part of a team of two that won this international competition (approximately 15 winners per year of thousands of teams; 10,670 in 2018) in 2018 and 2019 (team from Virginia Tech)

Travel Awards

- **Travel Award**, Workshop on Traits-Based Approaches to Ocean Life, Knoxville, TN ≈\$1,000, January 2022
- **Travel Award**, International High-Performance Computing Summer School, Atlanta, GA ≈\$1,250, July 2023

Scholarships

- **Barry Goldwater Scholarship**, Goldwater Scholarship Foundation \$7,500, March 2018
- **Astronaut Scholarship**, Astronaut Scholarship Foundation \$20,000, 2017 & 2018
- **Northrup Grumman and General Electric Women's Network Scholarships**
Society of Women Engineers \$5,000, 2016 & 2017
- **Eleanor Davenport Leadership Scholarship**, Virginia Tech Engineering \$28,000, 2015-2019
- **William C. McAllister Leadership Scholarship**, Virginia Tech Engineering \$5,500, March 2018

Nominations: 2023 Outstanding UROP (MIT Undergraduate Research) Mentor Award

ADVISING

Research Advisees

Kathy Sun, Undergraduate Research and Teaching Awards (UTRA) Student, Brown University	Fall 2025
Remy Dufresne, Summer Undergraduate Research Student, Brown University	Summer 2025
Evan Li, Summer Undergraduate Research Student, Brown University	Summer 2025
Ashely Aguayo, Summer Undergraduate Research Student, Brown University	Summer 2025
Emily Hu, Bridge-to-PhD Fellow, Brown University	2024-present
Jo Hickman, PhD Student, MIT-WHOI Joint Program in Biological Oceanography	2023-present
Miah Manning, PhD Student, MIT-WHOI Joint Program in Biological Oceanography	2023-present
Quinn Perian, Undergraduate Student, MIT '26	2023-2024
Weixuan Li, MIT Exchange Undergraduate Student (Mechanical Engineering) Southern U of Sci and Tech (Shenzhen, China) '23	2022-2023
Celeste Nobrega, Wheaton College '22	Summer 2021
Amy Zhong, MIT '23	Summer 2020

Other Academic Advising Programs

Total of 10 students advised in MIT-WHOI Joint Program (prospective and graduate students)

SHORT-TERM APPOINTMENTS

Joint Genome Institute , Lawrence Berkeley National Laboratory (advisor: Dr. Frederik Schulz) - Implemented topic modeling algorithm for taxonomic prediction in eukaryotes - Wrote benchmarked code in Python, Julia, and R to create and evaluate strain-specific metagenome-assembled genomes - Applied population genetic approaches to explore strain diversity in algal populations	June-Sept 2022
Joint Genome Institute , Lawrence Berkeley National Laboratory (advisor: Dr. Tanja Woyke, Dr. Frederik Schulz, Dr. Robert Bowers) - Applied genomic approaches to identify microbial eukaryotes in a eutrophic lake - Implemented network correlation algorithm to explore putative interactions between eukaryotes and prokaryotes	Jan-Mar 2021
Geophysical Fluid Dynamics Laboratory , NOAA (advisor: Dr. Charles Stock) - Designed and wrote agent-based models in Python and Julia to explore population ecology of economically-relevant blue crab in Chesapeake Bay - Used statistically-downscaled global climate model output to drive projected futures in a marine resource	Summer 2018
Advanced Computing and Information Systems Lab. , Univ. of Fla. (advisor: Dr. R. Figueiredo)	Summer 2017

SYNERGISTIC ACTIVITIES & OUTREACH

Broader Impacts

- **Co-President**, Broader Impacts Group, WHOI 2021-2024
- **K-12 Outreach with the Broader Impacts Group at WHOI** 2021-2024
- **Graduate Student Representative**, EAPS Department Diversity, Equity, and Inclusion Committee
Bi-monthly discussions and department culture evaluation 2023-2024
- **Member**, Undergraduate Recruitment Working Group, Woods Hole Oceanographic Institution 2022-2024
- **Orientation Coordinator, Dept. of Earth, Atmospheric, and Planetary Science (EAPS), MIT** 2021
- **Mentoring Coordinator, EAPS Department, MIT** 2021-2022
- **Mentor**, MIT-WHOI Joint Program Applicant Support Knowledgebase 2021-2024
- **Letters to a Pre-Scientist**, write quarterly letters to matched middle school pnepals 2019-present
- Falmouth Academy Science and Engineering Fair Judge 2021
- Mashpee Middle-High School Science and Engineering Fair Judge 2022-2023
- **CovEducation** Mentor for elementary school students 2020-2021
- Virginia Tech Department of Computer Science Ambassador 2017-2019
- **Presenter and Instructor**, Virginia Tech Kindergarten to College Program 2018-2019
- **Weekly Outreach and Teaching**, Giles County, VA Head Start Pre-Kindergarten Program 2019

Writing and Communications

- Blog Contributor, MIT Graduate Education 2021-2024
- Blog Contributor, The Ripple, MIT Educational Studies Program 2020
- **Engineers' Forum Magazine** at Virginia Tech: writer and Editor-in-Chief (2018-2019) 2015-2019
- **Writing Center Coach**, Virginia Tech 2018 - 2019

Panel Participation

- **Invited Panelist**, MIT EAPS Panel on How to Find & Fund Your Postdoc October 2024
- **Invited Panelist**, Experienced TA Panel at MIT TA Days August 2023
- **Invited Panelist**, MIT Science Policy - Oceans & Climate November 2019

Workshop Participation

- **Participant**, BioGeoSCAPES International Modeling Planning Workshop, Woods Hole, MA, USA September 2025
- **Workshop Co-Lead**, Association for the Sciences of Limnology and Oceanography (ASLO) Aquatic Sciences Meeting, Workshop on *Accounting for nitrogen fixation in temperate shelf and high latitude oceans*, Charlotte, NC, USA March 2025
- **Participant**, BioGeoSCAPES International Implementation Planning Workshop, Dedham, MA, USA February 2025
- **Participant**, Eco-DAS Ecological Dissertations in the Aquatic Sciences Collaborative Workshop for Recent PhDs, Honolulu, HI, USA April 2025
- **Participant**, Ocean Carbon & Biogeochemistry Workshop, Metatranscriptome Intercalibration, Savannah, GA, USA October 2024
- **Participant**, WHOI K-12 Education Planning Retreat, Falmouth, MA April 2024
- **Participant**, International High-Performance Computing Summer School, selective summer program in advanced computing held in Atlanta, GA, USA July 2023
- **Participant**, Inclusive Teaching in Phycology Workshop, Providence, RI, USA June 2023
- **Participant**, Simons Foundation CBIOMES Collaboration Workshop on Zooplankton Modeling, Dedham, MA, USA April 2023

Other Academic Service

- **Lead Chair**, Contributed Session, Association for the Sciences of Limnology and Oceanography (ASLO) Aquatic Sciences Meeting, Charlotte, NC March 2025
- **Lead Chair**, Contributed Session, Association for the Sciences of Limnology and Oceanography (ASLO) Aquatic Sciences Meeting, Palma de Mallorca, Spain June 2023
- **Chair**, Graduate Student Advisory Group for MIT Earth, Atmospheric, and Planetary Science (EAPS) and College of Computing Faculty Search December 2022-April 2023

Certifications

- **Software Carpentries Instructor** certified August 2020

SKILLS

Programming Languages: R, MATLAB, Python, Java, C, Fortran, Shell Scripting

Other Computing Skills: High-Performance Computing systems, SLURM scheduler, Adobe Illustrator, L^AT_EX, Git

Laboratory Skills: RNA/DNA extraction; Polymerase chain reaction; gel electrophoresis; scintillation counting; isotope experiments; invertebrate dissection; spectrophotometry; basic analytical water chemistry; algal culturing

Teaching Certifications: Certified Software Carpentries instructor, Kaufman Teaching Program Certificate

ACADEMIC REVIEW

mSystems, Microbiology Spectrum, ISMEj, Nature Communications, Environmental Microbiology, Scientific Reports, PNAS, Molecular Biology and Evolution
